Mr. Barney Klearman
Electrical Engineering Dept. 951
McDonnell Aircraft Corporation
St. Louis, Missouri

Dear Mr. Klearman:

Don Shapiro has prepared the following specifications for the kind of analyses which are of interest to us in psychopharmacology. The various features are available to us now through the complex interaction of a 1710 IBM computer system.

I hope these are helpful.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
