Dr. Adam J. Krakowski
International College of Psychosomatic Medicine
Plattsburgh, New York

Dear Adam,

I am interested in your suggestion to support the International College of Psychosomatic Medicine; but as is generally true for our academic programs, find no funds available to send our staff to foreign meetings. As I am unsure of our participation in Mexico City, I must decline your kind invitation.

It was fun discussing the Academy at the Pfizer symposium.

My best wishes for the success of the ICHM.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
