

March 30, 1965

Mr. Marc P. Marthaler
Information Scientist
12, rue de la Dole
Geneva, Switzerland

Dear Marc:

As I wrote to you earlier, there have been many changes in this Department in the last few months, and the Documentation Center Program is a temporary casualty. While two of the investigators are going ahead in planning the program, the Department Chairman is unable to bring himself to a decision regarding outside consultants at the present time.

I would suggest, therefore, that you make whatever plans you can to continue your present program. In the event that we are able to extend our invitation again, I will ask the Department Chairman to do so.

Sincerely yours,

Max Fink, M. D.
Professor of Psychiatry
