

February 25, 1964

Professor L. A. Hurst  
Department of Psychiatry  
and Mental Hygiene  
Medical School  
Johannesburg,  
South Africa

Dear Professor Hurst:

I wish to take this opportunity to thank you for your letter of reference on behalf of Dr. Alexander Don. I am pleased that we have been able to offer him an appointment at this Institute, which he has accepted. I look forward to having him work with us.

I am grateful for your kind comments regarding the 1961 meeting. You may be interested to know that a bibliography on EEG and Human Psychopharmacology was compiled by my associates following that meeting, and that this will be published within the next few months as EEG Supplement #23.

In addition, the 1964 meetings of the CINP in Birmingham, England, will include a panel discussion on this subject. I trust that the format of this all-day meeting will follow more of a discussion and inquiry rather than the sequence of presentations which were made that evening in 1961.

Again, my thanks for your kind recommendations.

Sincerely yours,

Max Fink, M.D.  
Director
