Dr. Joseph G. Bird
Director, Division of Clinical Research
Sterling-Winthrop Research Institute
Rensselaer, New York

Dear Joe,

Enclosed is a draft copy of our report on the EEG effects of cyclazocine, as presented in the ACNP meetings in Puerto Rico earlier this month. They have requested permission to publish this preliminary report as part of their proceedings.

I would like to cite the brochures (see references 1 and 2). May I have the permission of Sterling-Winthrop to do so?

Please do not share this copy with anyone as it is a preliminary draft. As soon as the final copy is prepared within the next few weeks, I will send one to you for the use of Sterling-Winthrop.

My best regards for the New Year.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
