

March 22, 1971

Mr. Warren K. Smoot  
Assistant Attorney General  
Criminal Justice Division  
188 W. Randolph Street (Suite 2200)  
Chicago, Illinois 60601

Dear Mr. Smoot:

The most definitive source of data on marijuana is the recent NIMH report, "Marijuana and Health", dated January 31, 1971.

Our studies are devoted to the effects of marijuana on brain neurophysiology. A summary of our latest study data, and a "position paper" are enclosed. Our contract, for studies in Greece, is in progress but no data are available now.

If you have more specific questions we will be glad to offer our assistance.

Sincerely yours,

Max Fink, M.D.  
Executive Director
