Thomas Williams, M.D.
Department of Psychiatry
V.A. Hospital
Salt Lake City, Utah

Dear Tom,

You will be pleased to know that with this mail I am sending the first manuscripts to the publisher. I have heard from Seymour today, and his section is in the mail to me. With some luck, the various pieces will be to the publisher by the end of the month, and the sections for the Archives to Dan Freedman as well.

As for the APPA, there is a simple solution. Knowing that there would be a hardship for some mebers to attend meetings regularly if they were resident west of the Mississippi or in Europe, the Association established a category of Corresponding Member. You obviously fulfill the requirements, and I would suggest you write to Jonathan Cole (Boston State Hospital, Boston, Massachusetts 02124) requesting transfer of classification. Should this arrive before Council meeting at the end of the month, I am sure that this change can be accomplished. (Unfortunately, I do not recall if the corresponding members pay dues or not-- ask him.)

My best regards.

Sincerely yours,

Max Fink, M.D.
Pofessor of Psychiatry
