Dr. Richard B. Resnick
Montefiore Hospital
Gun Hill Road and Bainbridge Ave.
Bronx, New York

Dear Richard:

Our programs are expanding once again and I am taking the liberty of enclosing a copy of our first annual report.

Now that much of the organization activities are well in hand, I am most pleased that during the past few months I have had an opportunity to spend some time in the laboratory and with patients.

How is your work progressing? There have been a number of rumors regarding changes in the Department of Psychiatry but I have yet to see any published facts. Are there some changes?

Please give my best regards to Bob.

Sincerely yours,

Max Fink, M.D.
Director
