Dear Rhea:

I am enclosing a copy of the memoranda which I shared with you and Costas. I think we ought to assume responsibility for making up these various reports. Should you wish to work on it with me, plan to come out here next week.

Peter has written the programs for the analysis of Variance and is testing them today.

When you were here, I forgot to give you the enclosed article on CHAT. When you know you are coming, and if you are interested, I would like to arrange a meeting with Dr. Krikorian.

I have written a summary of the data on the effects of ACTH on memory. It has to be edited once again, but I will send you a copy by the end of the week.

My best regards.

Sincerely yours,

Max Fink, M. D.  
Professor of Psychiatry
