

March 5, 1971

Mrs. Edward M. O'Neil  
35 Hillside Avenue  
Nutley, New Jersey 07110

Dear Mrs. O'Neil:

Unfortunately, the experimental studies described in the newspapers are limited to Lexington, Kentucky, Baltimore, Chicago and New Haven. Some research is in progress at the University of California Medical Center at Irvine, under the direction of Dr. Henry Elliott and Dr. John C. Kramer. I suggest she write to either of these men for advice. In Chicago, the authority is Dr. Jerome Jaffe at the University of Chicago Medical School.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
