

November 29, 1965

Mr. Marc P. Marthaler
12, rue de la Dole
Geneva, Switzerland

Dear Marc:

I would be pleased to send a letter of reference on your behalf to the U. S. Government. They are lucky to get you and I hope that your coming to this country will make it possible for us to get together once again to discuss our interests.

The program here has not received the support which it requested. In part, I believe this resulted from our failure to obtain the judgement and advice of workers in the field like yourself. I do not know what the Chairman of the Department will do, and so am very delighted to know that you have another way of coming to this country.

I look forward to seeing you soon and will be pleased to write a letter on your behalf.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
