Dr. Joseph G. Bird  
Sterling-Winthrop Research Institute  
Rensselaer, New York

Dear Joe,

I am pleased to tell you that an abstract describing our experiences with cyclazocine as an antidepressant has been accepted by the American Therapeutic Society for presentation at their Honolulu session on June 12 - 16. A copy of that abstract is enclosed.

I am planning to attend this meeting and present this report. It may be helpful to have Dr. Zaks or Dr. Simeon participate with me in the event we stimulate interest.

Is it possible for Sterling-Winthrop to consider sending an additional participant to this meeting?

My best regards.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry

MF:kp

P.S. May I remind you to send me the names of the last few patients treated with cyclazocine according to your records.
