Mr. A. Mahmood
Pakistan Medical Review
Karachi, Pakistan

Dear Mr. Mahmood,

Thank you for your kind invitation to participate in the special edition on psychiatry of the Pakistan Medical Review. I do not know your journal, regrettably, and so find it difficult to know if the work we have been engaged in would interest your readers. Perhaps a list of the contributors to the volume would be of help.

In the event that it does interest you, I would be prepared to send you an article entitled, "Psychoactive Drugs and the Alert EEG". It is approximately 20 pages in length, double spaced; with 50 references; and from 3-5 tables and 5-8 figures. Such an article could be prepared by the end of October.

I would appreciate knowing the number of copies of the Review, reprints and honorarium which authors may receive in participation in this volume; in addition to the list of invited contributors.

Thank you again for your kind invitation.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry

Director, Division of
Psychopharmacology
