Dr. Joseph G. Bird
Director, Division of Clinical Research
Sterling-Winthrop Research Institute
Rensselaer, New York 12144

Dear Joe,

As you know, we have carried out some preliminary studies of a new narcotic antagonist, naloxone. The EEG patterns of this compound are different from cyclazocine. The clinical data is quite similar however.

If you or any of your associates are interested in attending, I would be pleased to see you at the meeting..

^q
My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
