Miss Connie V. Hickman
Computer Center
Missouri Institute of Psychiatry
5400 Arsenal Street
St. Louis, Missouri 63139

Dear Connie,

We have finally received the cyclazocineEEEG's. Fortunately, I had only to present the material and did so, largely from memory. Now I have to write the paper and will be able to put the actual numbers into the next draft. The papers arrived in satisfactory condition. However, as I recollect, Don had given me an envelope containing bulletins and letters from the Time/Data Corporation. I put them on the top of the EEG records so that I would not have to carry the folder. In opening the box I do not find them. Perhaps before packing this was taken out and, if so, would you please check your table?

My best wishes for a Merry Christmas.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
