

October 20, 1967

Mr. Harold D. Appleton, Director
Department of Clinical Chemistry
Metropolitan Hospital
1901 First Avenue
New York, New York 10029

Dear Mr. Appleton:

Thank you very much for your assay of the sample of heroin submitted to you recently. I am most pleased that the results demonstrate that we have had an active preparation. This assay will permit us to report accurately the results of our experiments.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
