Dear Joe,

I think the volume, "Contemporary Sexual Behavior" should be issued in paper-back. It is a well-collected set of essays, not superseded by recent research. The topic is of perennial interest. I asked the advice of our resident sexologist, Dr. Richard Green, and he thought the volume of sufficient merit to be reissued.

(Incidentally, he is not a member of the APPA -- should we propose him?)

Congratulations!

Sincerely yours,

Max Fink, M. D.  
Professor of Psychiatry
