5 East 102nd Street  
New York, New York 10029

Dear Richard:

I am pleased to confirm the arrangement whereby tapes containing EEG information collected at the New York Medical College laboratories can be processed at the computer facilities of Stony Brook. The programs which we developed at the New York Medical College are available, and we will be pleased to assist you in the analysis of the data to be collected in the program, "Studies of Cocaine in Man."

My best regards,

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
