

25 January 1974

Yoshifumi Koshino, M.D.
3-10-11 Nomachi, Kanazawa
Ishikawa
JAPAN

Dear Dr. Koshino:

I would be pleased to have you work with me and congratulate you on the extensive experience which is reflected in your professional record and list of publications.

My laboratory was moved to a new university in January, 1973. While we have facilities for research fellows, we lack the financial means to support such a fellowship at this time. Should funds be made available from sources in Japan, which would provide you with the funds for travel as well as a stipend, we would be pleased to complete your application. We would require two recommendations from preceptors known to you; hopefully, one of them would be from the chairman of your department. With such letters and assurance of support, I will be able to recommend an appointment as a research fellow at the Health Sciences Center for a period of 12 months.

Thank you very much for your inquiry, and my best wishes for the success of your effort.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
