

November 10, 1972

Leo G. Abood, Ph.D.
University of Rochester
Rochester, New York 14627

Dear Leo,

In a recent discussion of the role of cholinergic agents on the CNS, a report written by you in 1961 was brought to my attention: *Distribution of Piperidine in the Brain and its Possible Significance in Behavior*, *NATURE* 191: 201-202, 1961.

Have you done any subsequent work with piperidine, particularly in other species? If so, I would appreciate some direction as to where I may find the reports.

Many thanks, and my best wishes.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
