Prof. Dr. H. M. van Praag  
Psychiatric Univ. Clinic  
Oostersingel 59  
Groningen, Holland

Dear Dr. Van Praag,

I look forward to joining you in Amsterdam on September 30. My present plans call for my arrival on Wednesday, September 29 about noon, and I have booked a room at the Amsterdam Hilton. Any messages regarding last minute arrangements can be sent there.

Professor Alfred Freedman has elected to prepare and read the report on "Cannabis Psychosis" that you requested. He is scheduled to arrive early Wednesday morning on an overnight flight from New York.

In the cannabis discussion, should you wish it, we could present the findings of our acute and chronic studies in volunteers, with emphasis on the EEG changes, and some preliminary data on our study of chronic cannabis users from Athens.

The manuscripts are not fully prepared, but should be available to you by October 15 at the latest.

Again, my thanks for your kind invitation.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
