Ephraim Friedman, M.D.  
Dean, Albert Einstein College of Medicine  
1300 Morris Park Avenue  
Bronx, New York 10461

Dear Dean Friedman,

I am pleased to submit this letter of recommendation on behalf of the appointment of Dr. Leo Zach to the rank of Associate Clinical Professor of Dentistry. I have known Dr. Zach since 1940, when we were classmates at New York University. Since then, I have followed his career in academic dentistry and have been an enthusiastic supporter of his practice.

At the time that I was a resident in neuropsychiatry at Montefiore, he was resident in pathology and my interest in his work was heightened by the excellent presentations that he made in seminars at that time. Since then, I have followed his publications and have been impressed with the quality of his work and the clarity of his thinking. On a number of occasions, I discussed his work with monkeys and found the results impressive.,

He is a personable and skilled lecturer and writer. His mastery of the English language is well known, and his teaching enthusiasm matches his research ability. I have been impressed that he has been able to use his skills in the office as well as the lecture hall and research theatre.

It is with pleasure that I endorse the recommendation for appointment as Associate Clinical Professor.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
