Dr. Charles E. Marshall
Associate Director of
Clinical Research
Winthrop Laboratories
90 Park Avenue
New York, New York 10016

Dear Dr. Marshall:

Some months ago we discussed a study of parenteral oxypertine in volunteers. I have recently begun such a study with one unknown compound and it would be convenient at this time to introduce oxypertine as one of the experimental drugs.

If such is possible, I would be pleased to discuss it with you. My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
