Dear Sid,

I am pleased to nominate Jan Volavka, M.D. for membership in the Society of Biological Psychiatry. I have known Dr. Volavka for 3 years. He trained with Jiri Roubicek, Creutzfeldt in Munich and Scott in London. He is a fine electroencephalographer and psychiatrist.

Roubicek is a logical seconder.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
