

January 7, 1965

Dr. Kazuo Saito
Hokkaido University School of Medicine
Department of Public Health
Sapporo, Japan

Dear Dr. Saito:

During the past few months we have processed your application for a position at this research center. In the interim, the programs have undergone some changes and it is not possible for us to make such an appointment at the present time. Your references were excellent and we would be pleased to have you join us, as soon as we are able to provide the necessary funds.

For this reason, I would like to hold your application and suggest that if you have another opportunity, that you avail yourself of it. When it is possible for us to support such an appointment, I will write to you.

Thank you very much also for your beautiful Christmas greetings.

Sincerely yours,

Max Fink, M.D.
Director
