Mr. Herman J. Jacobs
1111 Parkedge Lane West
University City, Missouri

Dear Mr. Jacobs:

We would be very pleased to consider an application from your daughter for position at this institute. This is the research and training center for the Division of Mental Diseases of the State of Missouri, and we have clinical facilities including 150 patients, specialized laboratories, including those in clinical and experimental psychology, and other facilities necessary for a research center.

In the event your daughter would like to write before she comes to St. Louis, I should be glad to hear from her.

Sincerely yours,

Max Fink, M. D.
Director
