Dr. Turan M. Itil
Missouri Institute of Psychiatry
5400 Arsenal Street
St. Louis, Missouri 63139

Dear Turan,

I have received the two reports, trifluoperidol - EEG and the psychotropic drugs using quantitative EEG analysis. Both reports are good and I am pleased to have been a participant.

You have been very busy and have created many new prints, most of which I do not have. Would it be possible to ask Yulmen to send me a single print of each of the following, and, perhaps a 2 x 2 slide?

MIP 323 Trifluoperidol - EEG
337 Trifluoperidol - EEG
328 Trifluoperidol - EEG
338 Trifluoperidol - EEG - Pentothal

334 Saline - EEG
329 Chlordiazepoxide - EEG
333 Cpz - EEG
330 Imipramine - EEG

284 PWRS
285 Period Analysis
286 Period Analysis
287 Period Analysis

Many thanks and I hope that your presentation in Paris was successful.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
