Dr. Jerome Levine
Psychopharmacology Research Branch
NIMH
Bethesda, Maryland

Dear Jerry,

I very much enjoyed our discussion of our common problems in San Juan.

On my return to New York, I received a letter from the Bureau of Narcotics suggesting that the marijuana license which I requested would be forthcoming, just as soon as I complied with the regulations of New York State. The letter indicated that I now had to obtain approval by State authorities for such research. Being a good citizen, I have complied with this request and have written for information regarding the necessary procedure to be followed.

We have recently completed a chapter for a volume on the treatment of narcotic addiction and I am taking the liberty of enclosing this report for your information.

May I take this opportunity to wish you a most Happy and Healthy New Year.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
