Dear Sol,

Enclosed is my report, *EEG Effects of Drugs of Dependence*, for the volume edited by Henry Brill and yourself. I regret the extra delay but I hope the data presented justifies the waiting. I would be pleased to have your comments and suggestions for modifications, should these prove useful to the overall design of the volume.

My best wishes for the volume's success, and for a happy and healthy New Year.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
