

November 22, 1967

Dr. Alain Sanseigne  
Squibb International  
460 Park Avenue  
New York, New York

Dear Alain,

Dr. Denham visited with us this morning and I hope he enjoyed the visit as much as I did. He is a charming experimental practitioner. He sat in on a meeting with the patients and answered some of their questions in a witty and enthusiastic manner. Drs. Bucci and Simeon joined me to discuss his experiences with fluphenazine and we found his reports interesting and helpful.

Thank you for suggesting that he visit with us. My best regards.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
