George O'Brien, M.D., Ph.D.
Department of Clinical Research
Abbott Laboratories
North Chicago, Illinois 60064

Dear George,

It was a pleasure to speak with you yesterday, and I am interested in the derivatives of cannabis. I look forward to meeting with you on your return from Paris.

Enclosed is a copy of the guidelines for the evaluation of anti-epileptic drugs. This was distributed in the registration packet to all the registrants at the International EEG meetings in Marseille early this month.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
