Dear Jonathan:

I am taking this opportunity to personally thank you for your many efforts on behalf of the Institute. As I left your office on Tuesday your comments regarding our applications reminded me of the great debt that George and I owe you, not only for your efforts in the grant programs themselves, but also for your favorable recommendations.

If and when this Institute is finely established as a research center, it will be largely through the support of men like yourself. Please accept my personal gratitude.

My best regards.

Sincerely yours,

Max Fink, M. D.
Director
