Mr. Robert L. Marlin
Sandoz Pharmaceuticals
Hanover, New Jersey 07936

Dear Bob,

I have read Leo Goldstein's report of his EEG analysis of S 42,548 with great interest. The data is not inconsistent with our own, and should therefore, be useful to you in your decisions regarding this compound.

Thank you for the opportunity to read this report.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
