Dear Bif,

The scientist who presented an interesting report  
at the recent meetings in Amsterdam was

H. O. J. Collier  
Miles Laboratories  
England

(I regret I don't have a better address)

His presentation was titled "A Pharmacological  
Analysis of Drug Dependence" .

I look forward to joining the discussions on the 28th.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
