Dr. Stephen B. Bernstein, Program Head
Early Clinical Drug Evaluation Unit
Psychopharmacology Research Branch
National Institute of Mental Health
5454 Wisconsin Avenue
Chevy Chase, Maryland 20015

Dear Steve,

Enclosed is a contribution for the ECDEU Intercom. If it is too long, I will be glad to edit it. Our programs are, as you see, quite extensive, and perhaps this report should be divided over a few issues.

In thinking of this summary, and my recent call to you, perhaps an article can be written in Intercom to describe the populations available to each unit. It would give us a better view of the basis for the results discussed.

Another topic of interest is the prison methodology for early phase I studies - who does it, where and how?

Thanks for the invitation to contribute, and my best wishes for the success of this endeavor.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
