Gentlemen,

I am pleased to second the nomination of Stanley F. Yolles, M.D. as a Fellow of the New York Academy of Medicine.

I have known Dr. Yolles for more than a decade, first in his role as Director of the National Institute of Mental Health, and since 1972 as Chairman of this Department of Psychiatry.

He is an outstanding physician, administrator, and a humanist. I believe we would be honored to count him among our Fellows and I am pleased to recommend his admission.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
