

September 30, 1968

Dr. Robert W. Atkins
University of Rochester
School of Medicine and Dentistry
260 Crittenden Blvd.
Rochester, New York 14620

Dear Dr. Atkins:

I am pleased to write this letter of recommendation regarding Mrs. Mary Ann Stallings. Mrs. Stallings was a research nurse with me at the Missouri Institute of Psychiatry for more than a year in 1965.

In her position with me she was responsible for coordinating a new drug evaluation program. She provided the necessary liaison between the research staff and service staff of the Center. She maintained records and provided data analyses at the end of the study. I found her work most satisfactory and when she left for Topeka to accompany her husband who was continuing in his training, I was pleased to recommend her to Dr. Paul Feldman. After she had worked with him for sometime, he met me and thanked me for both training and recommending her.

I would have no hesitation in recommending Mrs. Stallings for any position of responsibility or leadership that required initiative, understanding and tact.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
