

*F: letters - '65*

September 14, 1965

Dr. Stuart H. Fine  
c/o Mr. Petr Sensky  
52 Avenue Crescent  
Crawford  
Middlesex, England

Dear Dr. Fine:

Thank you for your inquiry and for the recommendation from Dr. Rosenberg. Your record is a good one, but I regret that these laboratories have no openings at the present time for July 1966. We have established laboratories in psychopharmacology, neurophysiology, clinical psychiatry, and the computer sciences applied to psychiatry, but have no sections dedicated to psychosomatic medicine nor to child psychiatry at the present time.

I would recommend that you consider the opportunities offered by the Massachusettes General Hospital.

Sincerely yours,

Max Fink, M. D.  
Professor of Psychiatry
