Mrs. Virginia I. Word
Department of Honor Camps
Building 6 5555 Overland Avenue
San Diego, California 92123

Dear Virginia:

It was nice hearing from you, and I am pleased to send you copies of the California F scale, and the "reverse" form as well. I think you will find that the scale and its use is described in a report written by my associate, Robert Kahn, in the Journal of Nervous and Mental Diseases, 130: 187-192, 1960.

After many months of dickering, our laboratories are now part of the School of Medicine of the University of Missouri. George has accepted the position as Chairman of the Department and all the senior members have been appointed to the University faculty. In addition, the laboratories are now almost complete, and we are, really for the first time, functioning as a major research center.

My best regards to Tom.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
