Chicago, Illinois 60603

Dear Jules,

Enclosed is an edited proof of the contribution to the next volume of Current Psychiatric Therapies. There are a few minor corrections, chiefly in the citations. There are two omissions, however, which I am bringing to your attention.

The footnote, assisting the reader to separate the different forms of long acting methadols is omitted, and I have added it.

The credits deleted my acknowledgement to my co-workers, and to the funding agencies which have supported this work. I am including these with the request that these debts be acknowledged.

My thanks again for inviting my participation in this volume.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
