Drs. W. Guy and R. Bonato
George Washington University
Biometric Laboratory
1145 19th Street, N.W., Room 618
Washington, D.C. 20036

Dear Bill and Ron,

Enclosed are eight RPR's of our EEG studies of:

Doxepin - Pamoate vs. Hcl
Doxepin: Bioavailability
U28774
AHR 1118
CP 14368
S 42,548
GPA 1714
OI - 63

In addition, we could file our studies of marijuana, heroin and methadone, both clinical and EEG, should you believe these useful in the data bank. If so, please return 8 RPR forms.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
