George Washington University
Biometric Laboratory
Room 618
1145 Nineteenth Street, N.W.
Washington, D.C. 20036

Dear Ron and Bill,

I want to thank you for the data outputs and for the time you spent with me on Friday. I discussed the outputs with my associates and we are pleased with the methods of presentation. I pointed out that we were missing the drug-dose data and these forms are being completed now.

Enclosed are two copies of the laboratory report which describes the standards in placebo treated patients during my stay in Missouri. I think this is an important model for all drug studies.

I look forward to seeing you Monday.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
