

November 20, 1970

Dr. Edgar Grunwaldt
Geigy Pharmaceuticals
Ardsley, New York

Dear Ed,

Last fall we embarked on a sequential drug evaluation study in children and adolescents. Seventeen patients have been studied, and a summary of our initial data is enclosed.

Two patients received Tofranil in liquid vehicle, and a summary of each case record and the Geigy laboratory forms are enclosed.

The study was both difficult and expensive. As Dr. Simeon has returned to St. Louis, I have deferred further admissions to the project.

I want to thank you for your assistance and encouragement.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
