

April 22, 1966

Mr. G. H. Cohen
Department of Electrical Engineering
University of Rochester
Rochester, New York 14627

Dear Mr. Cohen:

Following the announcement in *Science* of February 25, Dr. Shapiro and I are pleased to submit an abstract describing our documentation studies for your consideration for the 1966 Rochester Conference.

We believe that this study describes an approach to the problems of biomedical literature processing and retrieval.

We trust this meets with your approval and look forward to joining you.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
