FRG

Dear Werner,

I received your Fax regarding your nephew and took it up with Fritz Henn. He will ask for approval from the Dean's office and should know within a few weeks.

We have had such scholars previously. Our third-year students have a clinical course of 6 weeks which is both didactic (lectures) and clinical. It is preferable that he be assigned to work on 10-North at University Hospital and if possible, should be there when either I or Fritz Henn are 'on service'. When approval comes, let me know what dates he has available and I will advise you how to maximize his experience.

My best wishes for a happy and healthy 1994!

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
and Neurology
