Dear Mr. Naitoh:

I have received a copy of your curriculum vitae, from my friend, Dr. Gordon Heistad.

Our laboratories in neurophysiology are well established in their clinical programs, but our basic animal laboratories are first being developed. Nevertheless, I would like to discuss your curriculum vitae with a member of our staff who will join us next month. In the event that it seems possible for us to consider an additional staff member at that time, I will write to you. In the meantime, I should like to hold your curriculum vitae.

Sincerely yours,

Max Fink, M.D.
