Dr. Walter Modell, Editor
Clinical Pharmacology and Therapeutics
Cornell University Medical College
1300 York Avenue
New York, New York 10021

Dear Dr. Modell:

I am pleased to enclose a draft copy of the report "Clinical Antidepressant Activity of Cyclazocine - A Narcotic Antagonist" for your consideration for publication in *Clinical Pharmacology and Therapeutics*. This report summarizes our experiences with cyclazocine in the treatment of depressive illness - an application which was suggested by our studies of its characteristic EEG effects.

These studies were completed last year but I have withheld publication pending studies of this compound by other investigators. Reports of studies by others will be presented at the meetings of the American Society of Clinical Pharmacology and Chemotherapy.

Thank you for your consideration.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
