Dr. Konstantine Miras
Professor of Biological Chemistry
University of Athens School of Medicine
Athens, Greece

(Goudi 609)
Dear Costas,

While we have not yet received the formal contracts from N.I.M.H., both Al Freedman and I are proceeding on the assumption that we should take advantage of our forthcoming trip to Europe to meet with you to discuss the details of the project.

Dr. Freedman can arrive in Athens from Tel Aviv about August 13, but I am scheduled to be in Prague until August 15. I hold reservations Prague (ZRH) Athens on Saturday, August 15, arriving in Athens at 1835 (A 723). We both are scheduled to leave for meetings in Istanbul on Monday, August 17 at 1700 (BEA 438).

We plan to stay at the Grand Bretagne Hotel, and would appreciate meeting with you on Sunday and Monday. It would be useful to meet once again with Dr. Stefanis, and other members of the staff who may participate in the project.

After the meetings in Istanbul, I plan to return to Athens (August 21) with my family for a holiday in the city and among the islands. This will also give us an opportunity to meet again to continue our planning sessions, if this is necessary.

Our best regards.

Sincerely yours,

Max Fink, M.D.
