

March 8, 1965

Dr. Jonathan O. Cole
National Bank Building
6917 Arlington Road
Bethesda, Maryland

Dear Jonathan:

I am writing with regard to the grant application entitled "Early Clinical Psychotropic Drug Evaluation Program" submitted on February 17, 1965. Following our discussion of March 1, reviewing this grant application and our proposed collaborative study program with the University of Istanbul, I would like to request the withdrawal of this grant application. As soon as it is available, I will submit a new grant proposal entitled "A Collaborative Clinical Drug Evaluation Program" which will incorporate many of the program possibilities envisioned in the present application, but also include the specific modifications which we have discussed regarding the collaborative aspects in Turkey.

Thank you very much for your help in developing this study program.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
