

F. LETTERS

February 7, 1972

Dr. Avram Goldstein  
Department of Pharmacology  
Stanford University Medical Center  
Stanford, California 94305

Dear Avram:

Our reports to the Methadone Conference were progress reports, as participants in a symposium. The basic data is in press, the cyclazocine in *Comprehensive Psychiatry* (1971), naloxone in *JAMA* (1971), and the  $\ell$ -alpha-acetylmethadol in *JAMA* (in press, 1972).

It does not appear useful to represent <sup>INT</sup>~~resent~~ these reports, although you may wish to cite these sources.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
